

DAVID B and the TERRIBLE ROCKS

Written by Christine Smith & Illustrated by Rebecca Rothman

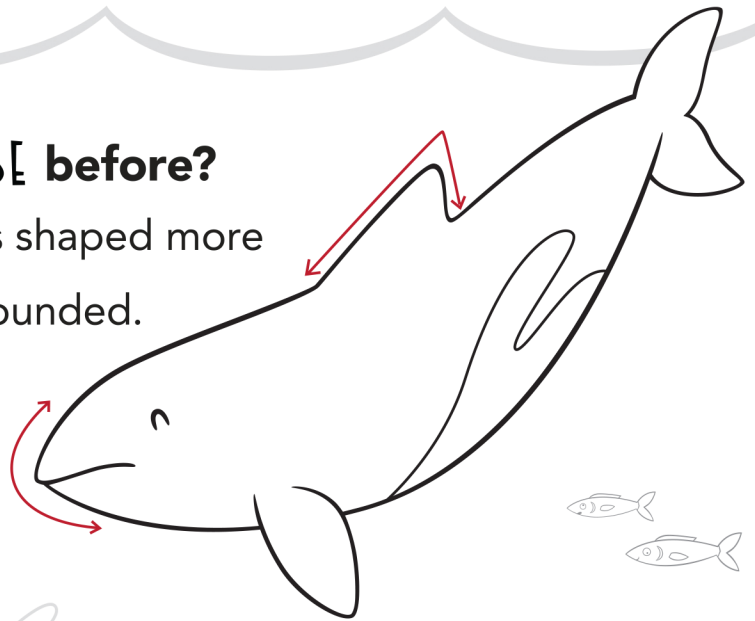

Dolly and her friends are Dall's Porpoises.

They love to eat small fish and are fast swimmers, swimming around 34 miles per hour. Dall's porpoises also enjoy playing on bows of moving boats.

Have you ever seen a PORPOISE before?

The fin on the back of a porpoise is shaped more like a triangle, and their faces are rounded.

How about a DOLPHIN?

A dolphin has a long "beak" and a more curved fin on its back.
