## Welcome Aboard

We have prepared a list of clothing items, and equipment you might like to have along for your trip aboard the *David B.* Summertime temperatures in the San Juan Islands in Washington can vary from the 50s to the lower 90s (10C to 32C). Alaska's temperatures can range from the low 40s to mid-70s (4C to 23C). While most days are sunny or overcast you should be prepared for significant amounts of rain.

We suggest packing so that you can dress in layers that can be added or subtracted depending on the changing weather.
